

What is WordPress?

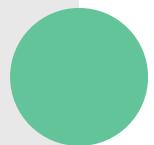

An intro into WordPress

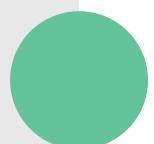

WordPress is a **self-hosted open-source software** using which one can build a **website or blog**. In fact, WordPress powers over **43.3%** of all the websites on the Internet.

More than 455 million sites use WordPress. With **over 2 million** downloads every year, WordPress usage continues to rise steadily.

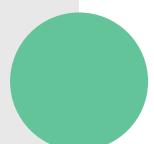

Easy

Most WordPress themes can be set up and customized with zero coding required.

Quick WordPress Installation

It only takes a few minutes. you can start creating your website as soon as you have the inkling to build it.

Mobile-Friendly

A website that's not responsive may as well be invisible. With WordPress, most themes are optimized to work well and look good on all types of devices.

Flexible

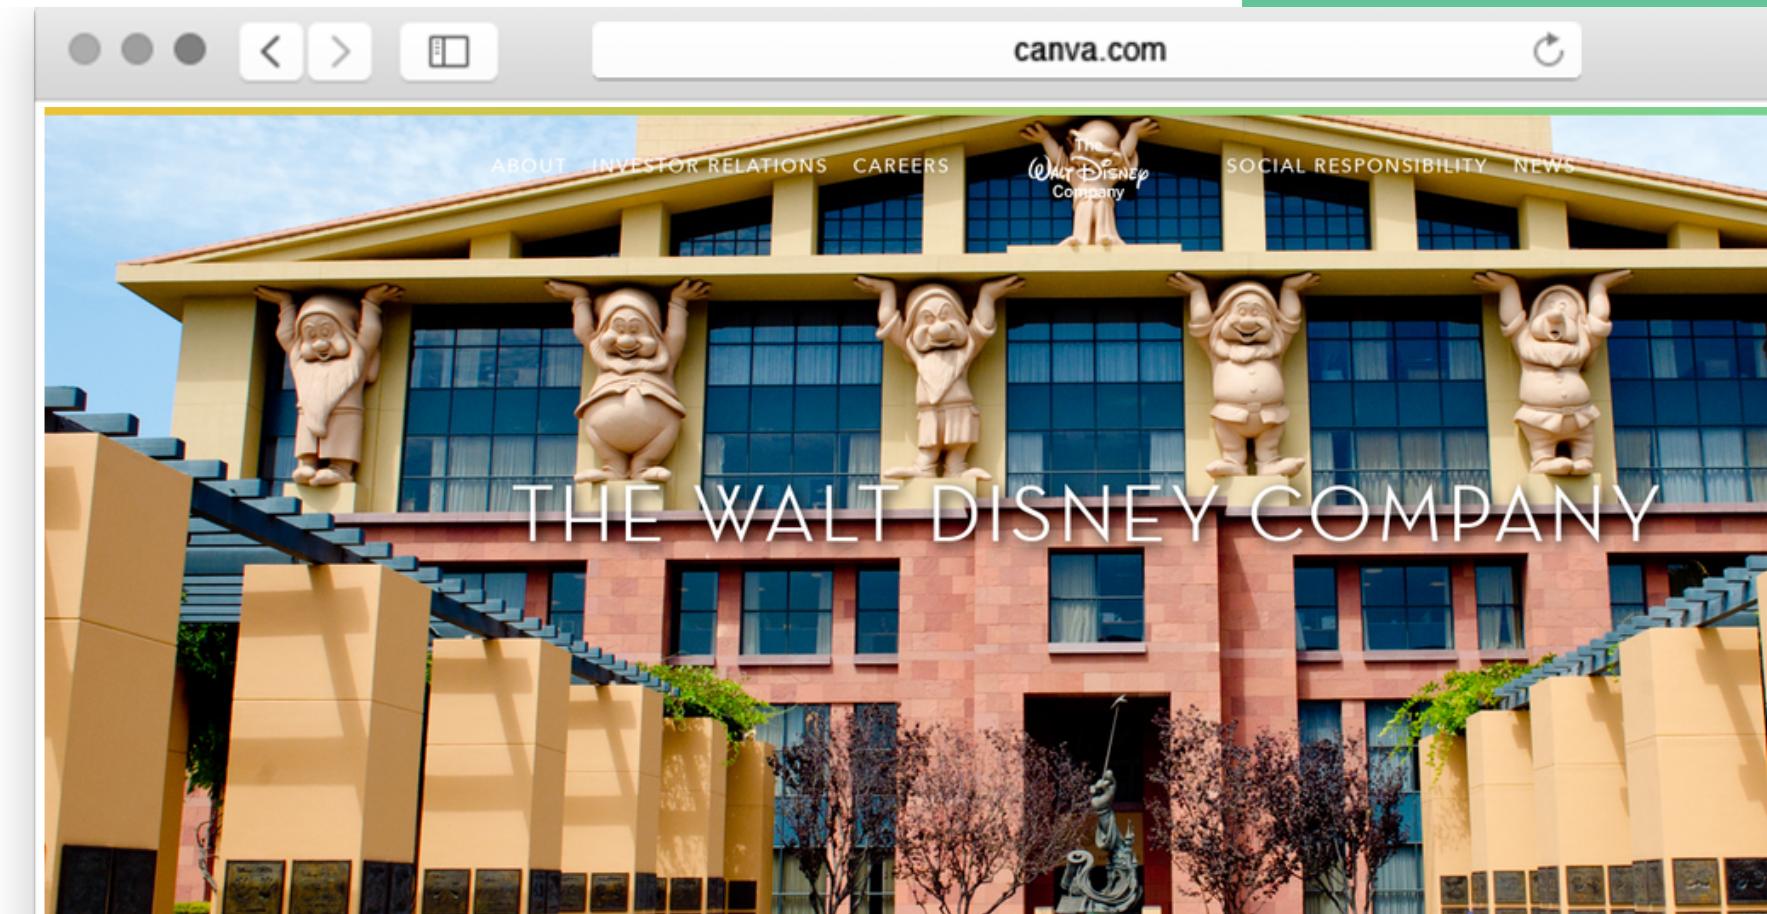

Whether you're building an online store or a private WordPress blog, this platform provides thousands of themes and plugins to make your site look and function exactly how you'd like

Affordable

WordPress is open source, which means its source code is available to you free of charge. You still need a place to store and run the code, but the code itself is free and keeps your costs down.

A screenshot of a web browser showing a "RECENT NEWS" section on canva.com. It features a large image of a woman in a suit, followed by a list of news items under the heading "TOP STORIES". The stories include: "New Ways to Customize Your Facebook Feed" by Facebook (October 5, 2022), "Global State of Small Business: Recovering Slowly, But Economic Optimism Remains" by Meta (October 4, 2022), and "Meta Connect 2022: Meta Quest Pro, More Social VR and a Look Into the Future" by Meta (October 11, 2022).

A screenshot of a web browser showing the Sony Music website. The top navigation bar includes links for "About", "News", "Careers", "FAQ", and "For Artists". The main content area features a large portrait of a Black male artist. Below the portrait, there is a section titled "Labels" with logos for Columbia, RCA, Epic, Arista, and Arista Nashville. There is also a "Featured Videos" section with three video thumbnails.

What is a Domain name?

The screenshot shows a newsroom interface with a header for 'canva.com'. Below the header are navigation links: 'Shop', 'Our Technologies', 'About Us', and 'Build With Us'. The main section is titled 'Newsroom' and features a 'TOP STORIES' heading. The first story is from 'Facebook' with the title 'New Ways to Cus Your Facebook F' and a snippet about introducing new ways to what's most relevant to Facebook. It includes a photo of a person wearing VR goggles and two controllers. The second story is from 'Meta' with the title 'Global State of S Business: Recover Slowly, But Econ Optimism Remai' and a snippet about the economic reality of entrepreneurs around the world. It includes a photo of a person wearing a VR headset. A footer at the bottom of the page contains a cookie consent message.

By clicking or navigating the site, you agree to allow our collection of information about your browser and device, including your IP address, to help content, tailor and measure ads, and provide a safer experience. We use cookies. More than 400 malicious iOS apps this year targeted users to steal their Facebook logins.

A **domain name** is a text that a user types into a browser window to reach a particular website.

Every computer on the Internet has an **address which is unique** in nature. It is a string of numbers and is referred to as **IP address**. A **domain name points to an IP address**.

What is a Hosting / Web server?

The screenshot shows a newsroom interface with a header for 'canva.com' and navigation links for 'Shop', 'Our Technologies', 'About Us', and 'Build With Us'. The main section is titled 'Newsroom' and 'TOP STORIES'. It features two prominent stories: one from Facebook about new ways to customize Facebook and another from Meta about Meta Connect 2022. Both stories include a thumbnail image of a person wearing VR goggles.

More than 400 malicious apps have been removed from the App Store this year, and we've taken steps to protect users from them.

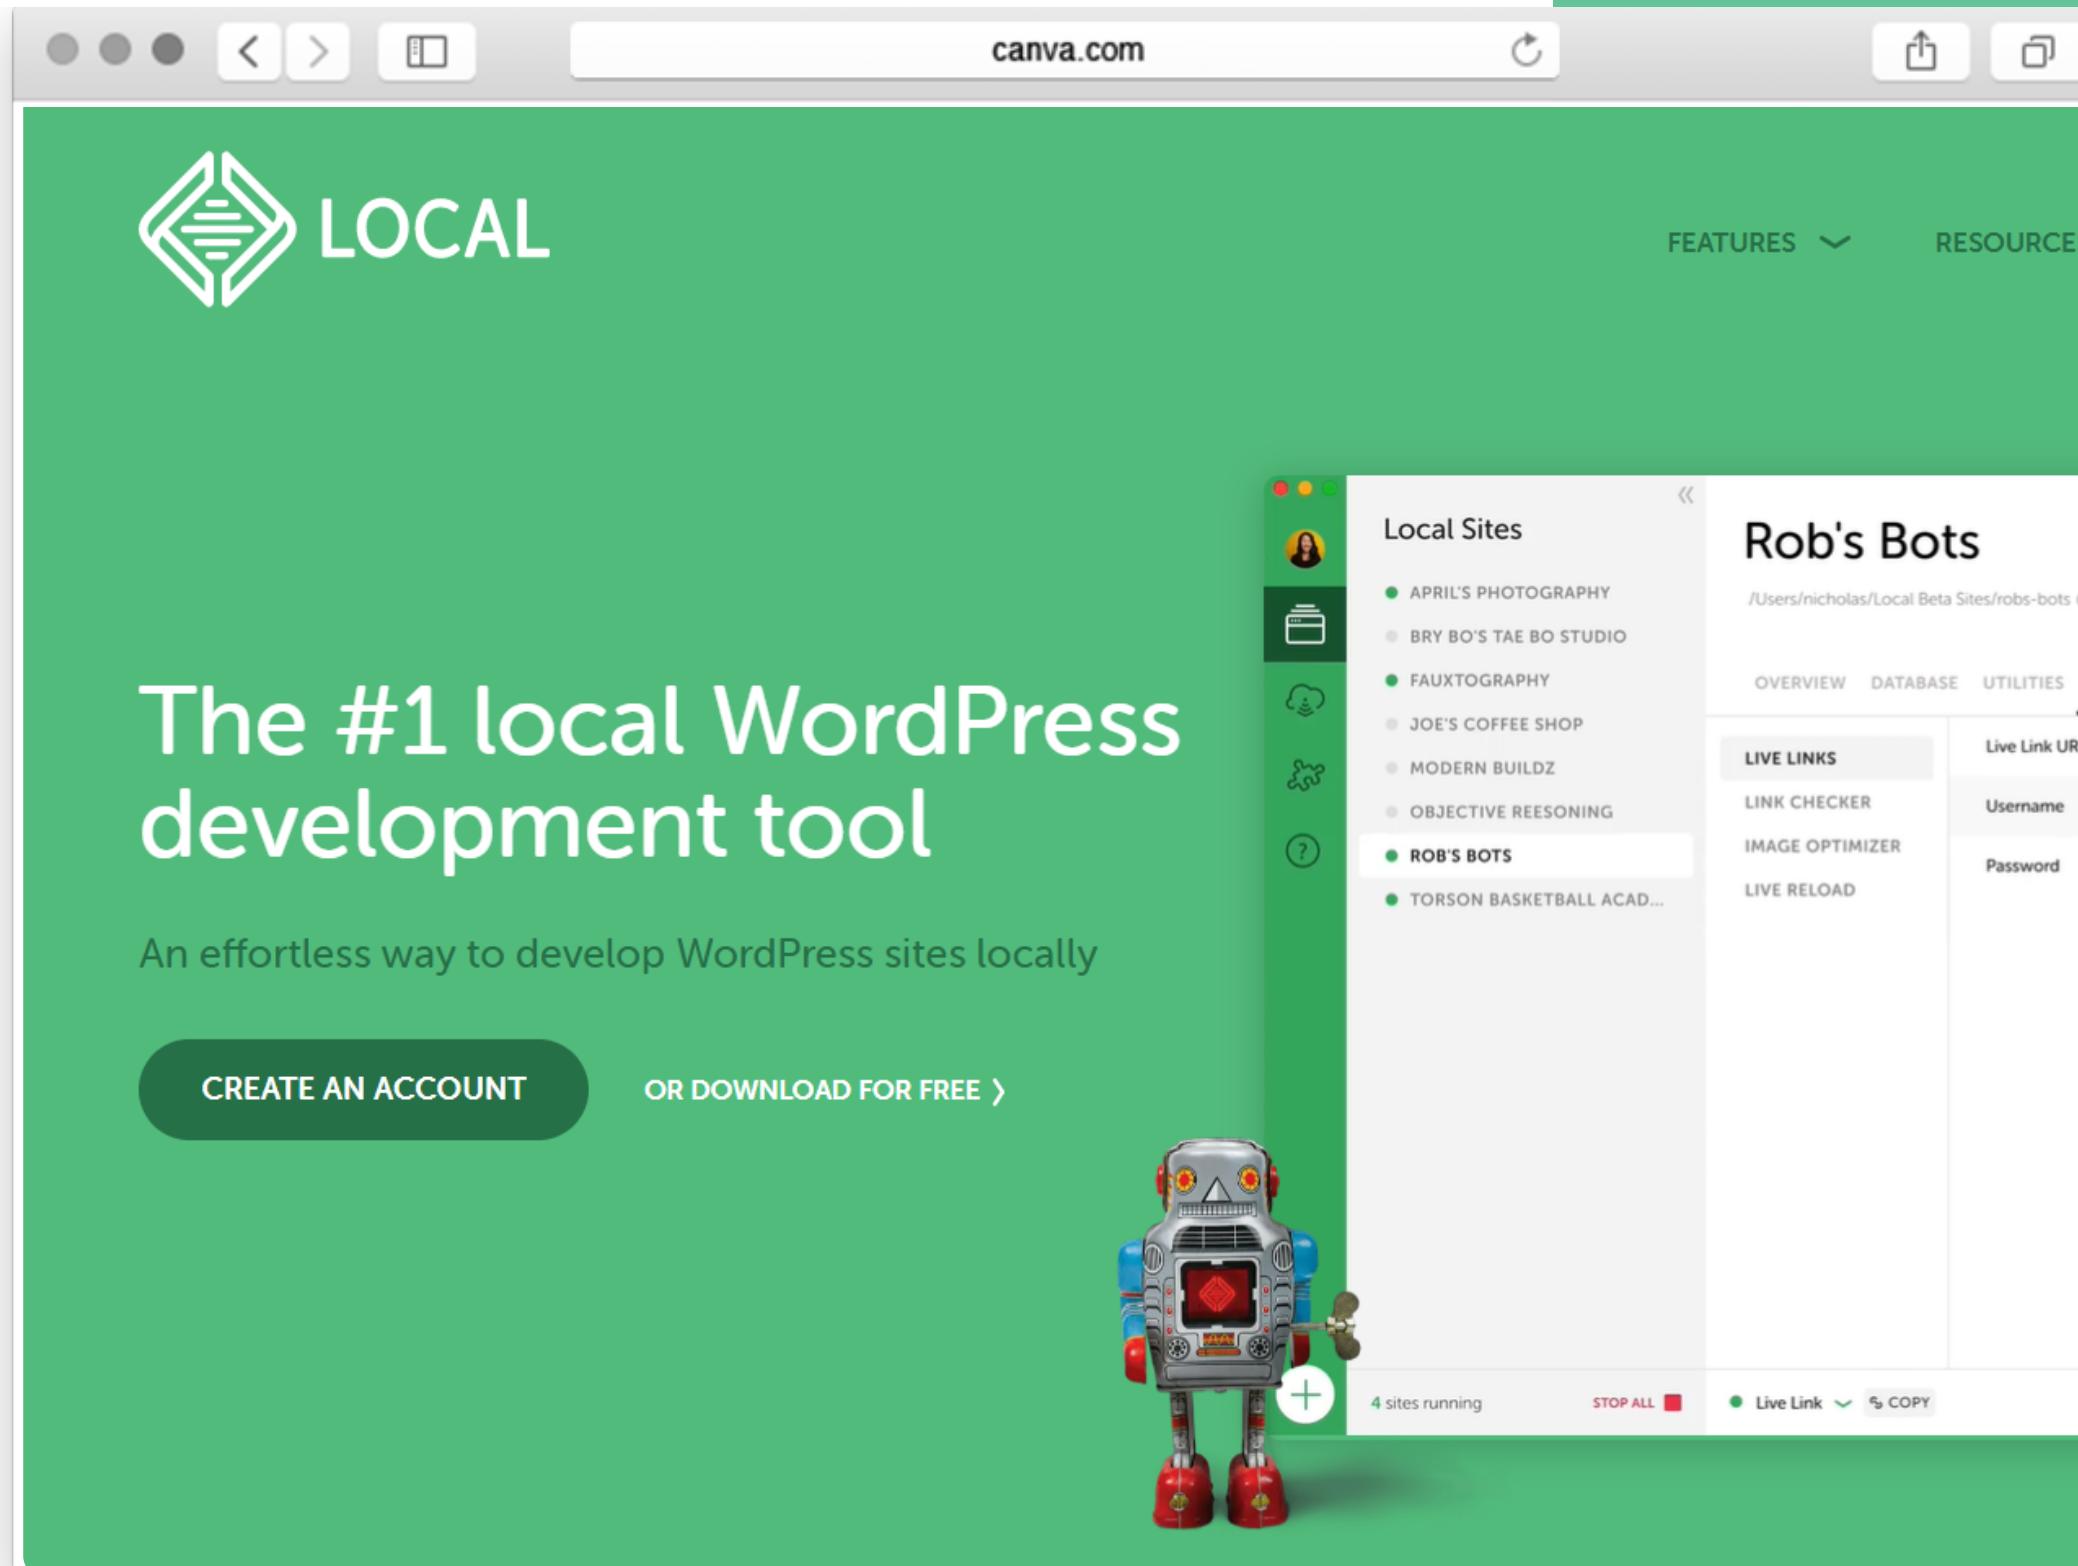

A **web server** is a **computer** that **stores your website data** and makes the site **accessible** to everyone.

Basically, the web hosts allow the users to place documents, such as **HTML pages, graphics, and other multimedia files**, etc. onto a special type of computer called a **web server**.

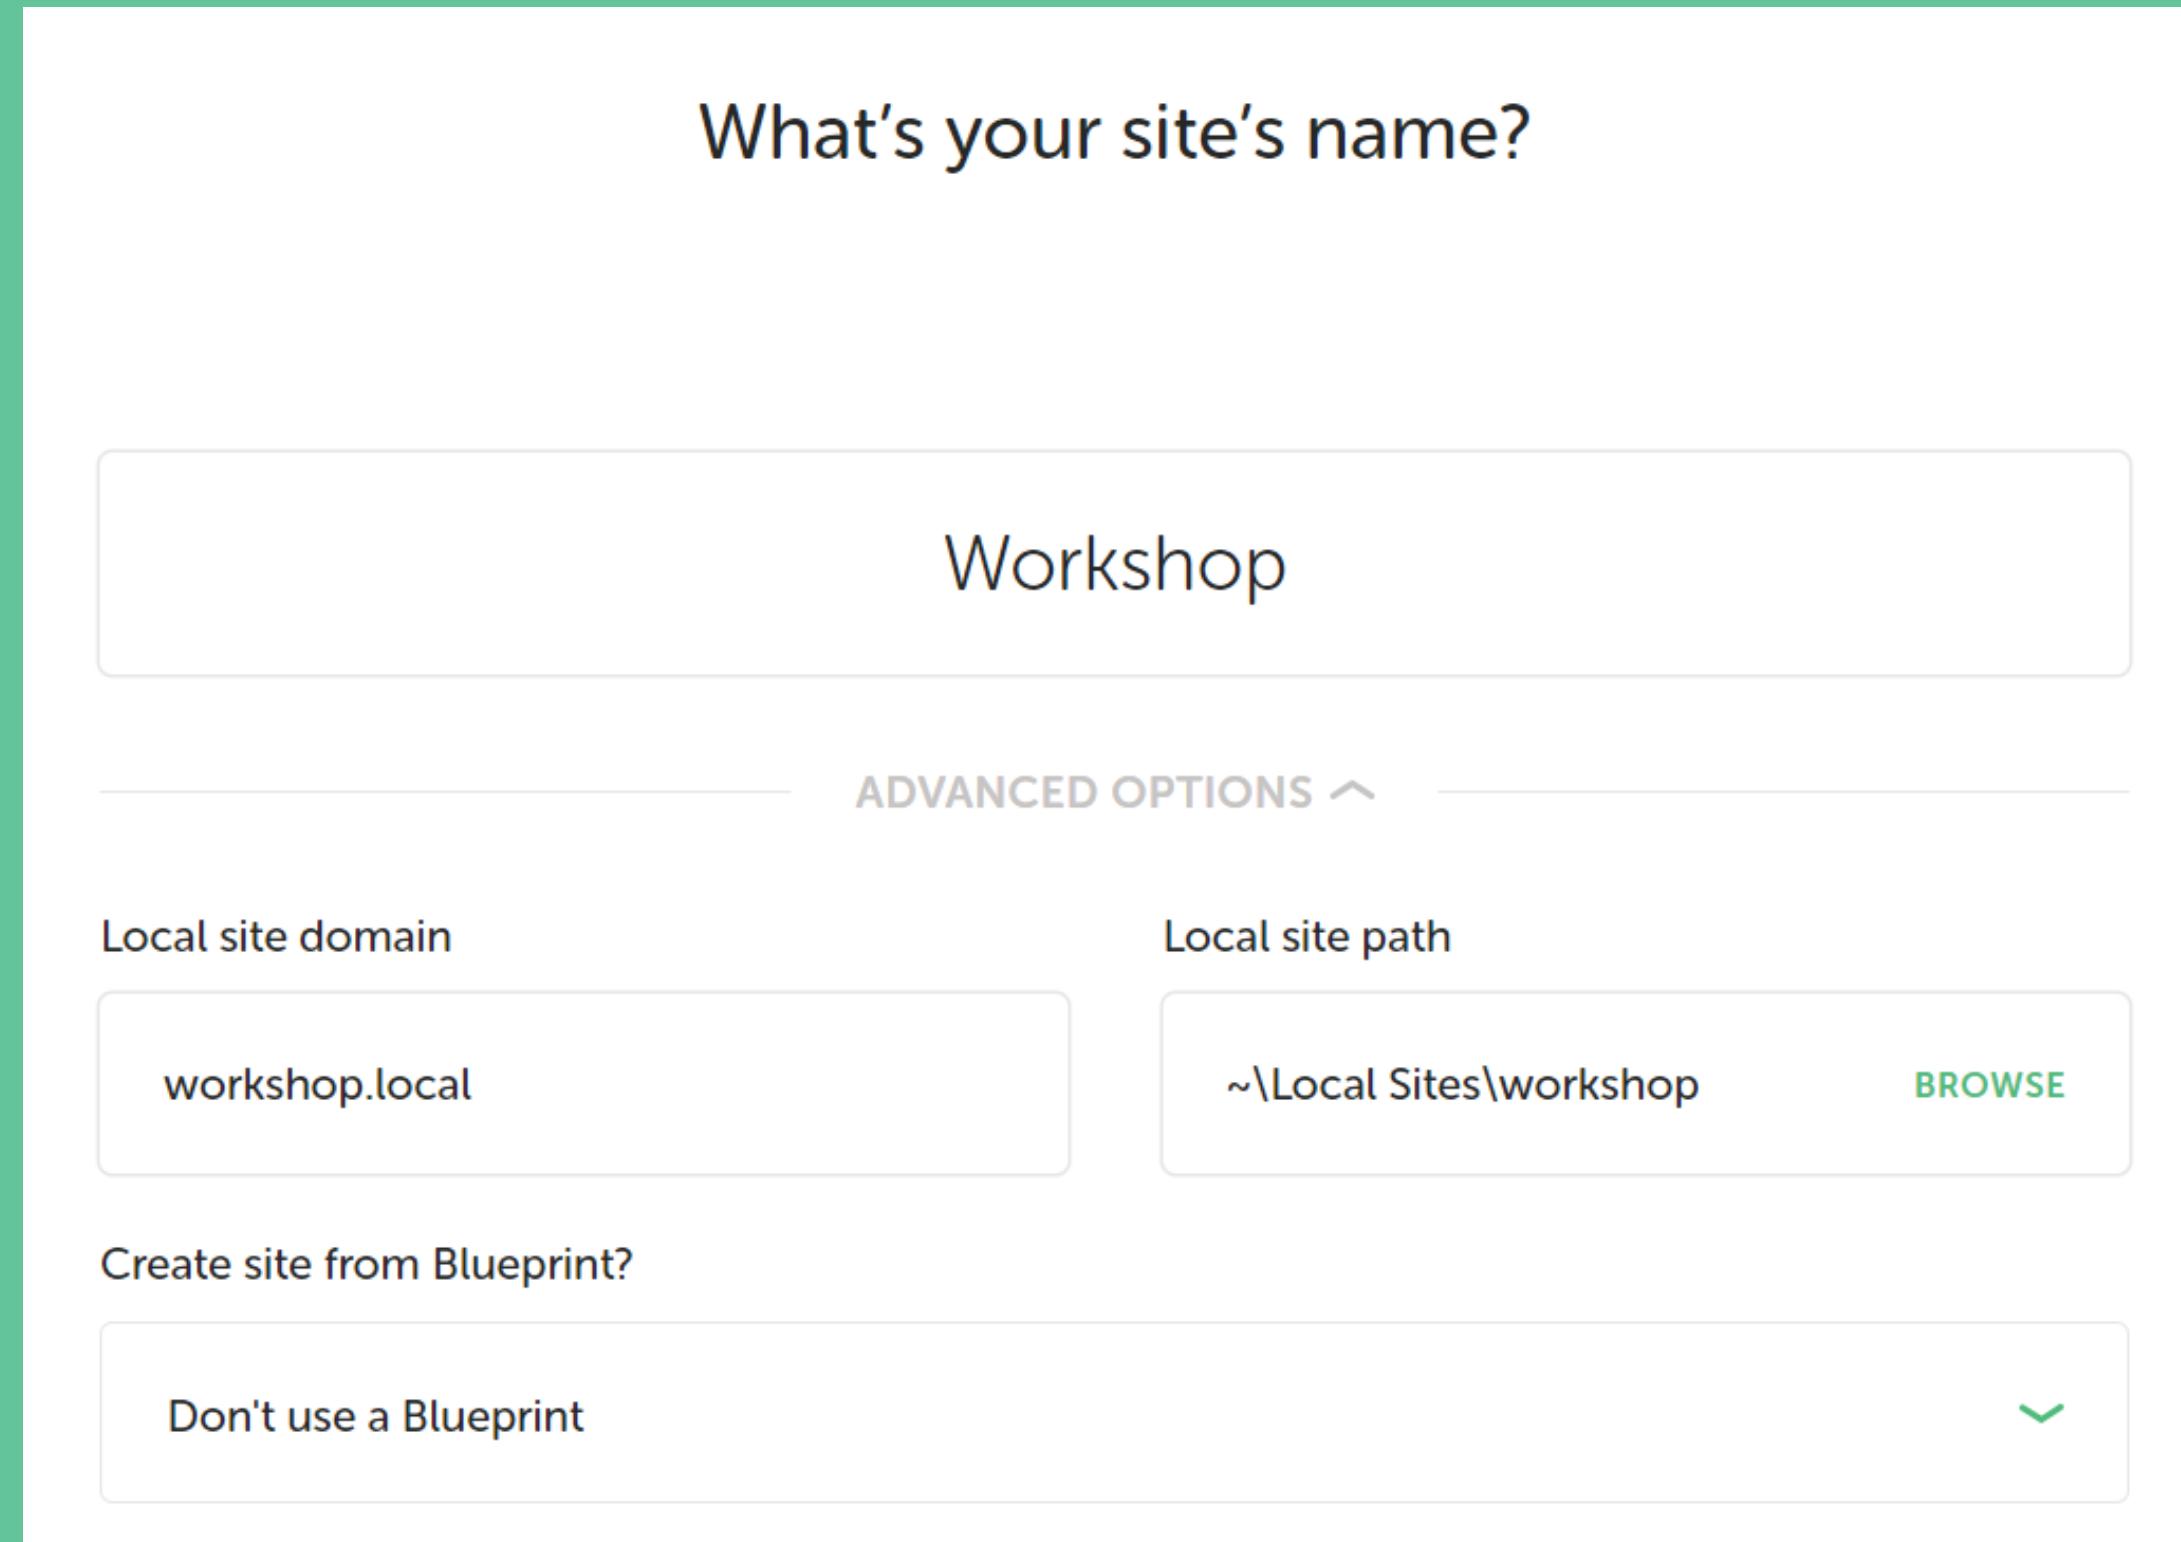

Let's install Local WP

localwp.com

Once the installation is complete, launch Local WP.

- **Click on + icon to create new site**
- **Enter a name for your website**

**Create new user profile by entering a
username, password and email id.**

Is this a WordPress multisite?

No 

Congratulations!

You have successfully installed WordPress.

Hello world!

Welcome to WordPress. This is your first post. Edit or delete it, then start writing!

Let's explore WordPress.

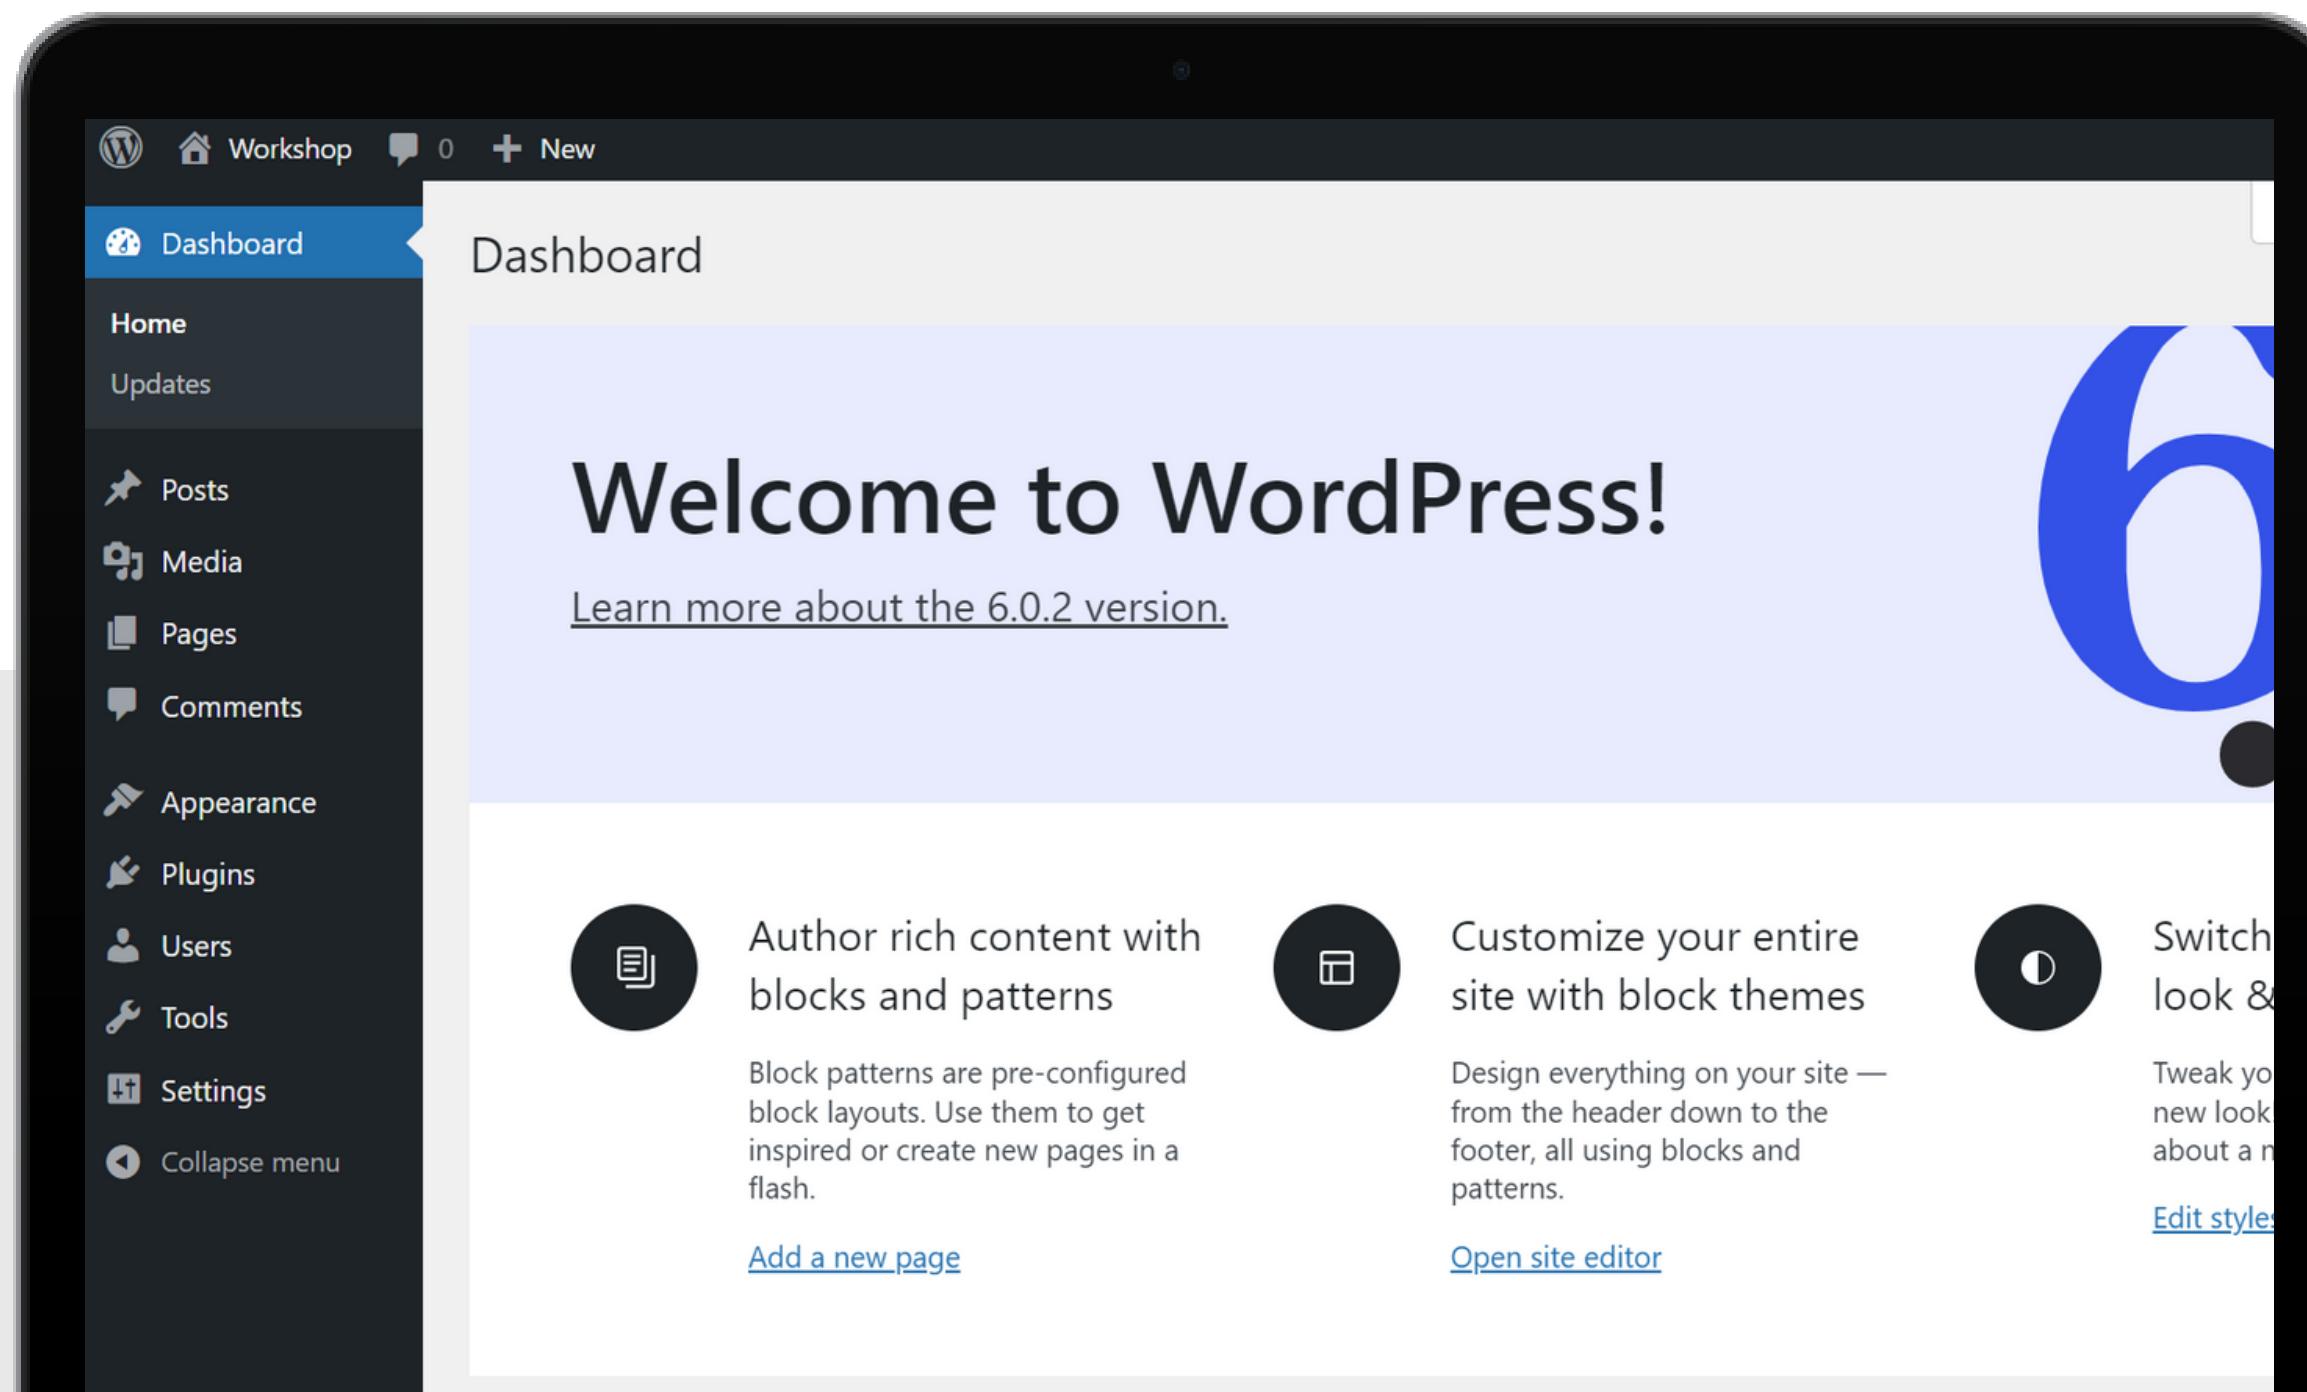

Let's say your website is
example.com

So to access the admin page,
go to **example.com/wp-admin**

OR

Just click on **Admin** button in
Local WP

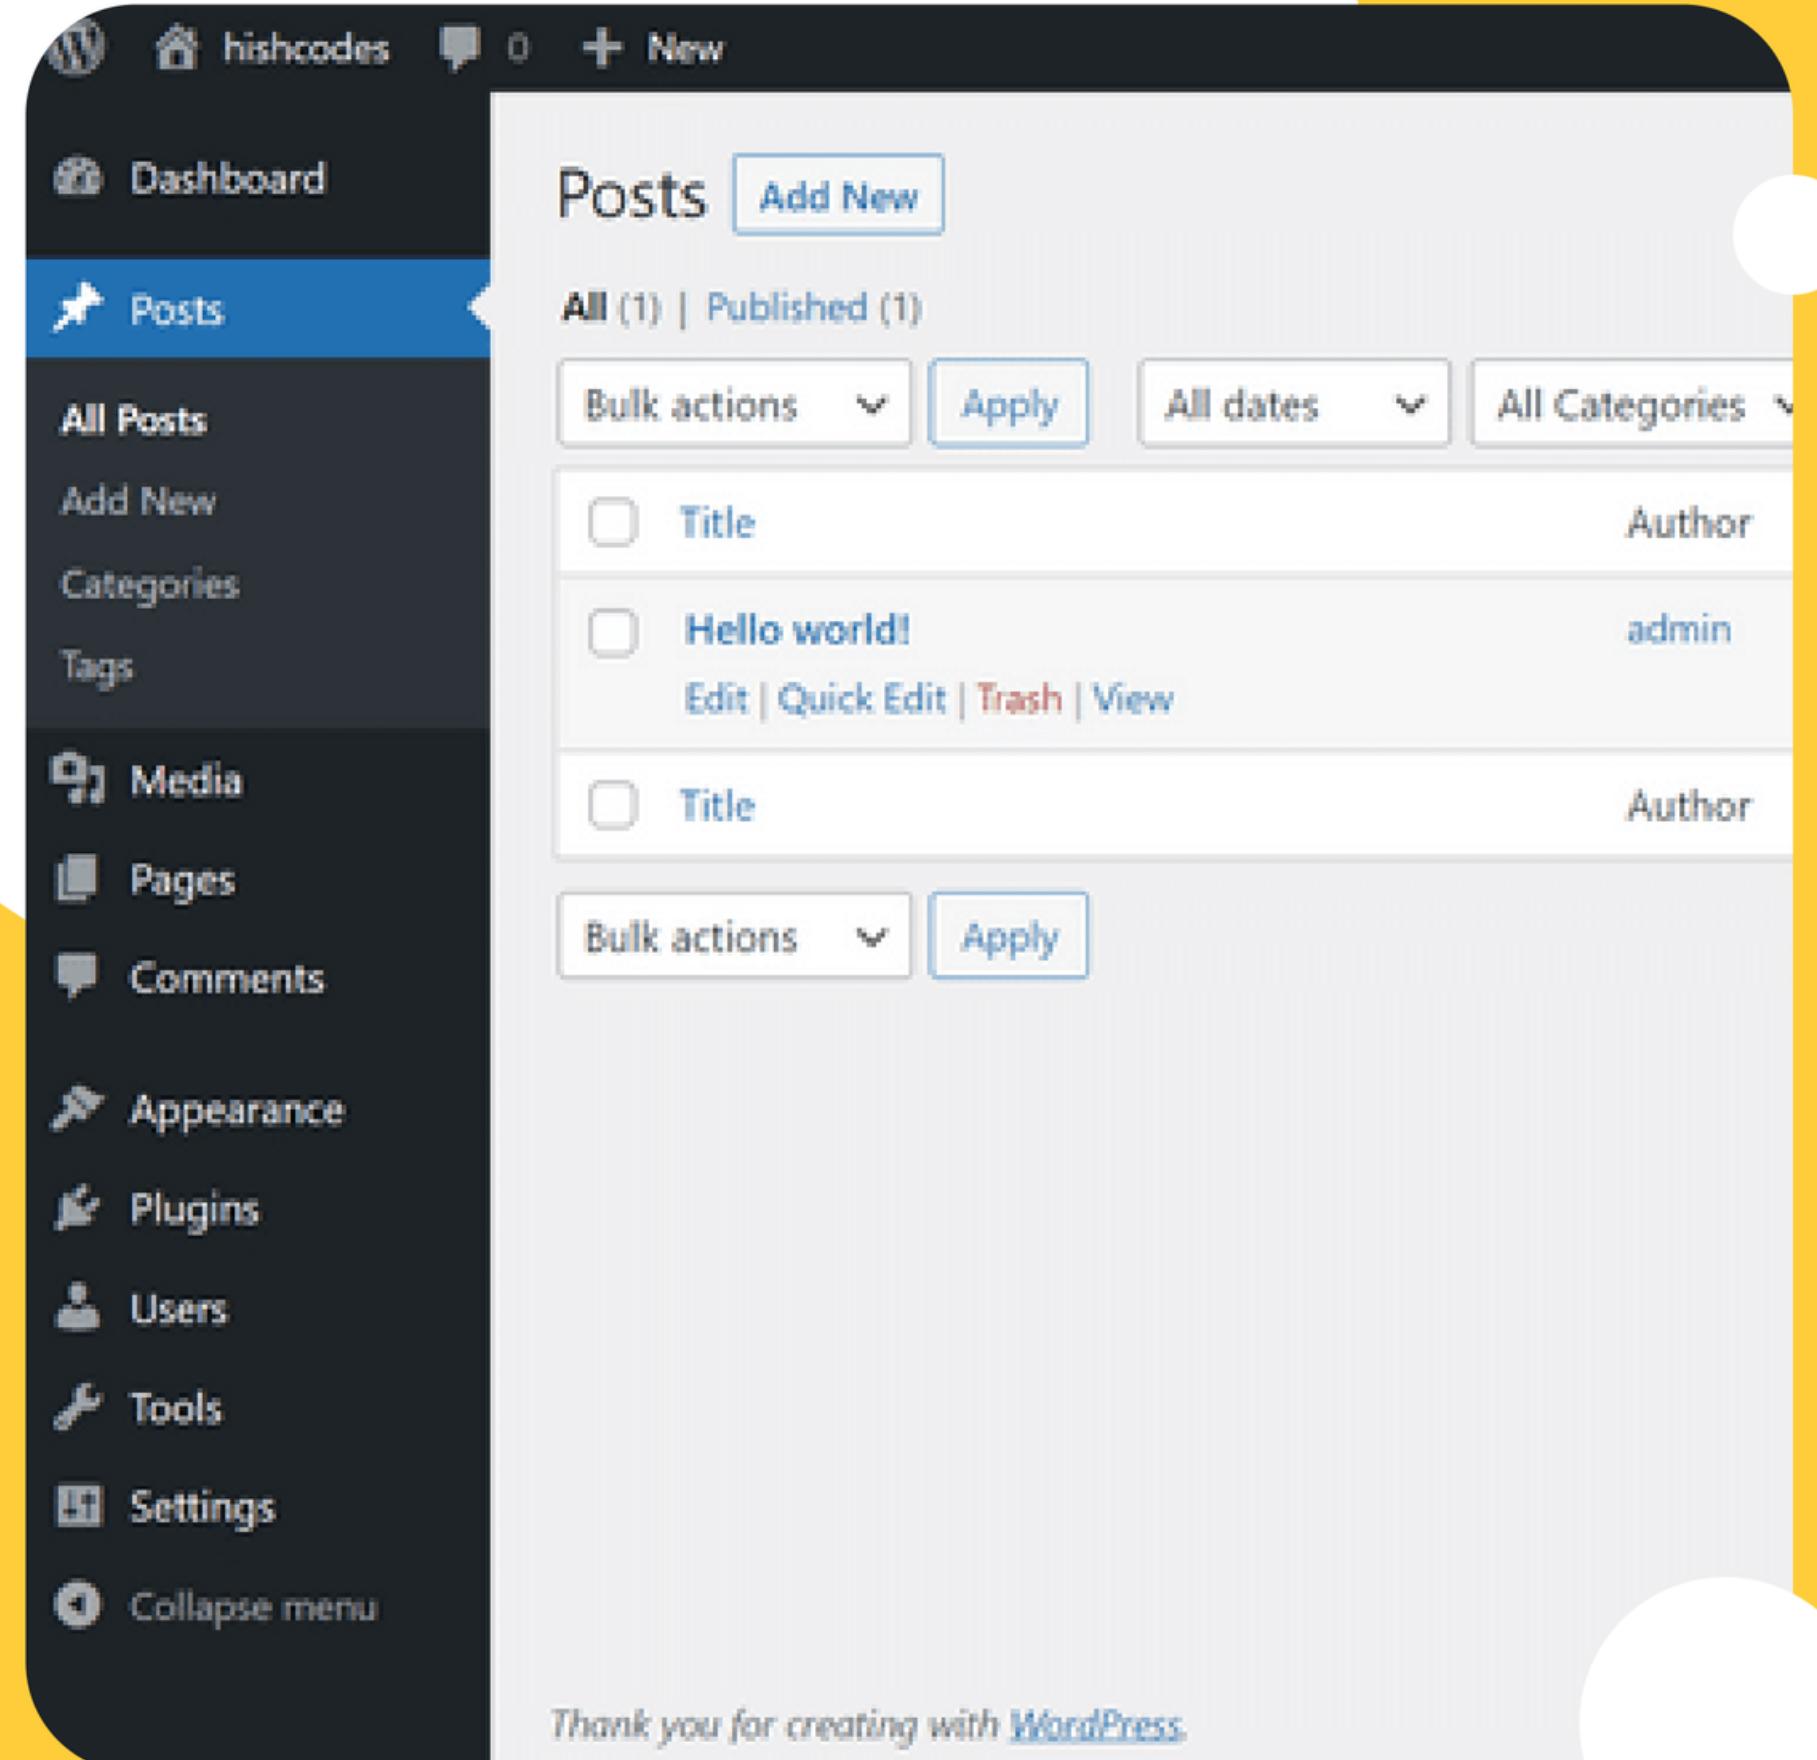

This is your WordPress admin dashboard

Posts

This is where you can
create a new **Blog post**.

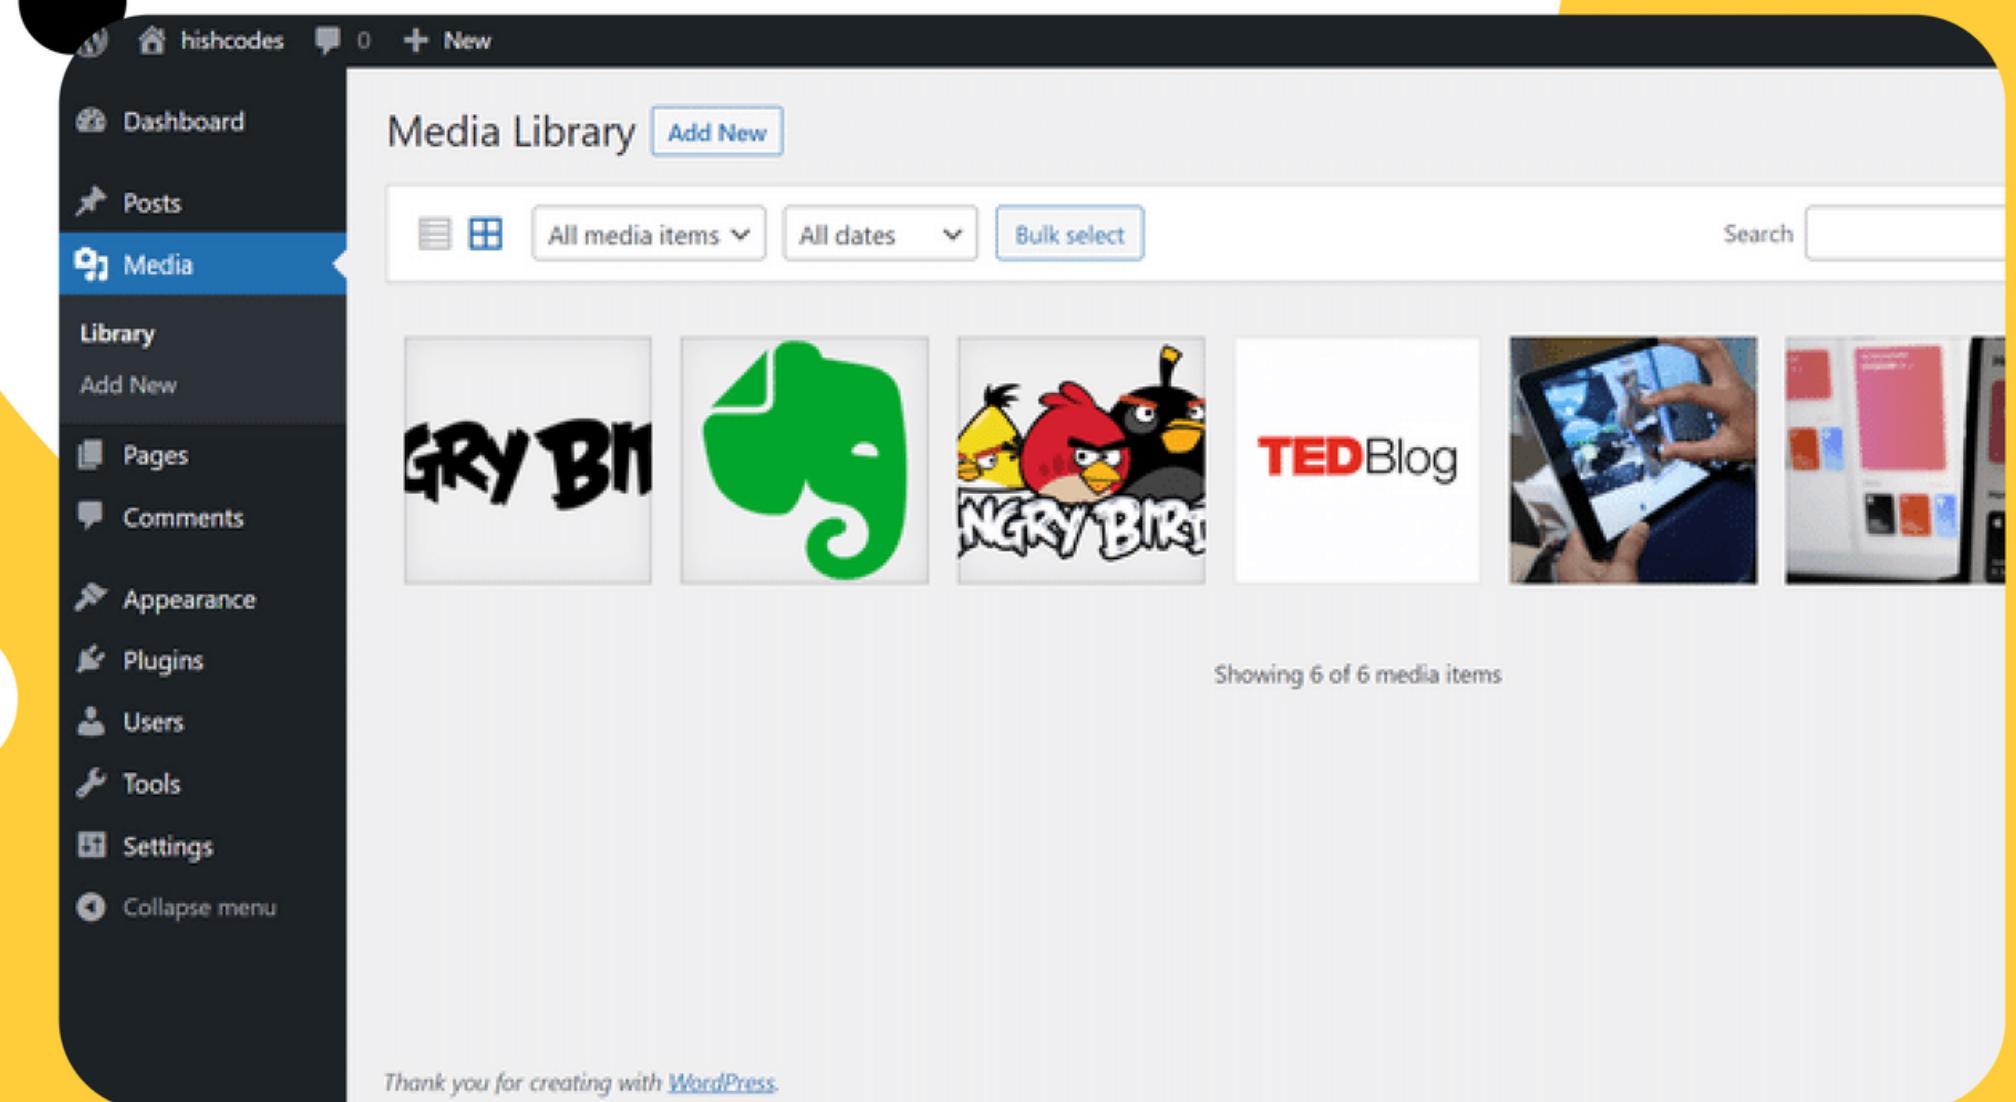

Next to that, you can
manage your
Categories and Post
Tags.

The screenshot shows the WordPress admin dashboard with a dark sidebar and a light main content area. The sidebar on the left has a blue header bar with the site name 'hishcodes' and a 'New' button. Below this, the sidebar menu includes 'Dashboard', 'Posts' (which is highlighted in blue), 'All Posts', 'Add New', 'Categories', 'Tags', 'Media', 'Pages', 'Comments', 'Appearance', 'Plugins', 'Users', 'Tools', 'Settings', and 'Collapse menu'. The main content area has a title 'Posts' with a 'Add New' button. It displays a list of posts: 'Hello world!' by 'admin' (with edit, quick edit, trash, and view links). There are also two other rows for posts that are currently collapsed. At the bottom of the content area, there are 'Bulk actions' and 'Apply' buttons, along with filters for 'All dates' and 'All Categories'. A footer message at the bottom right says 'Thank you for creating with WordPress.'

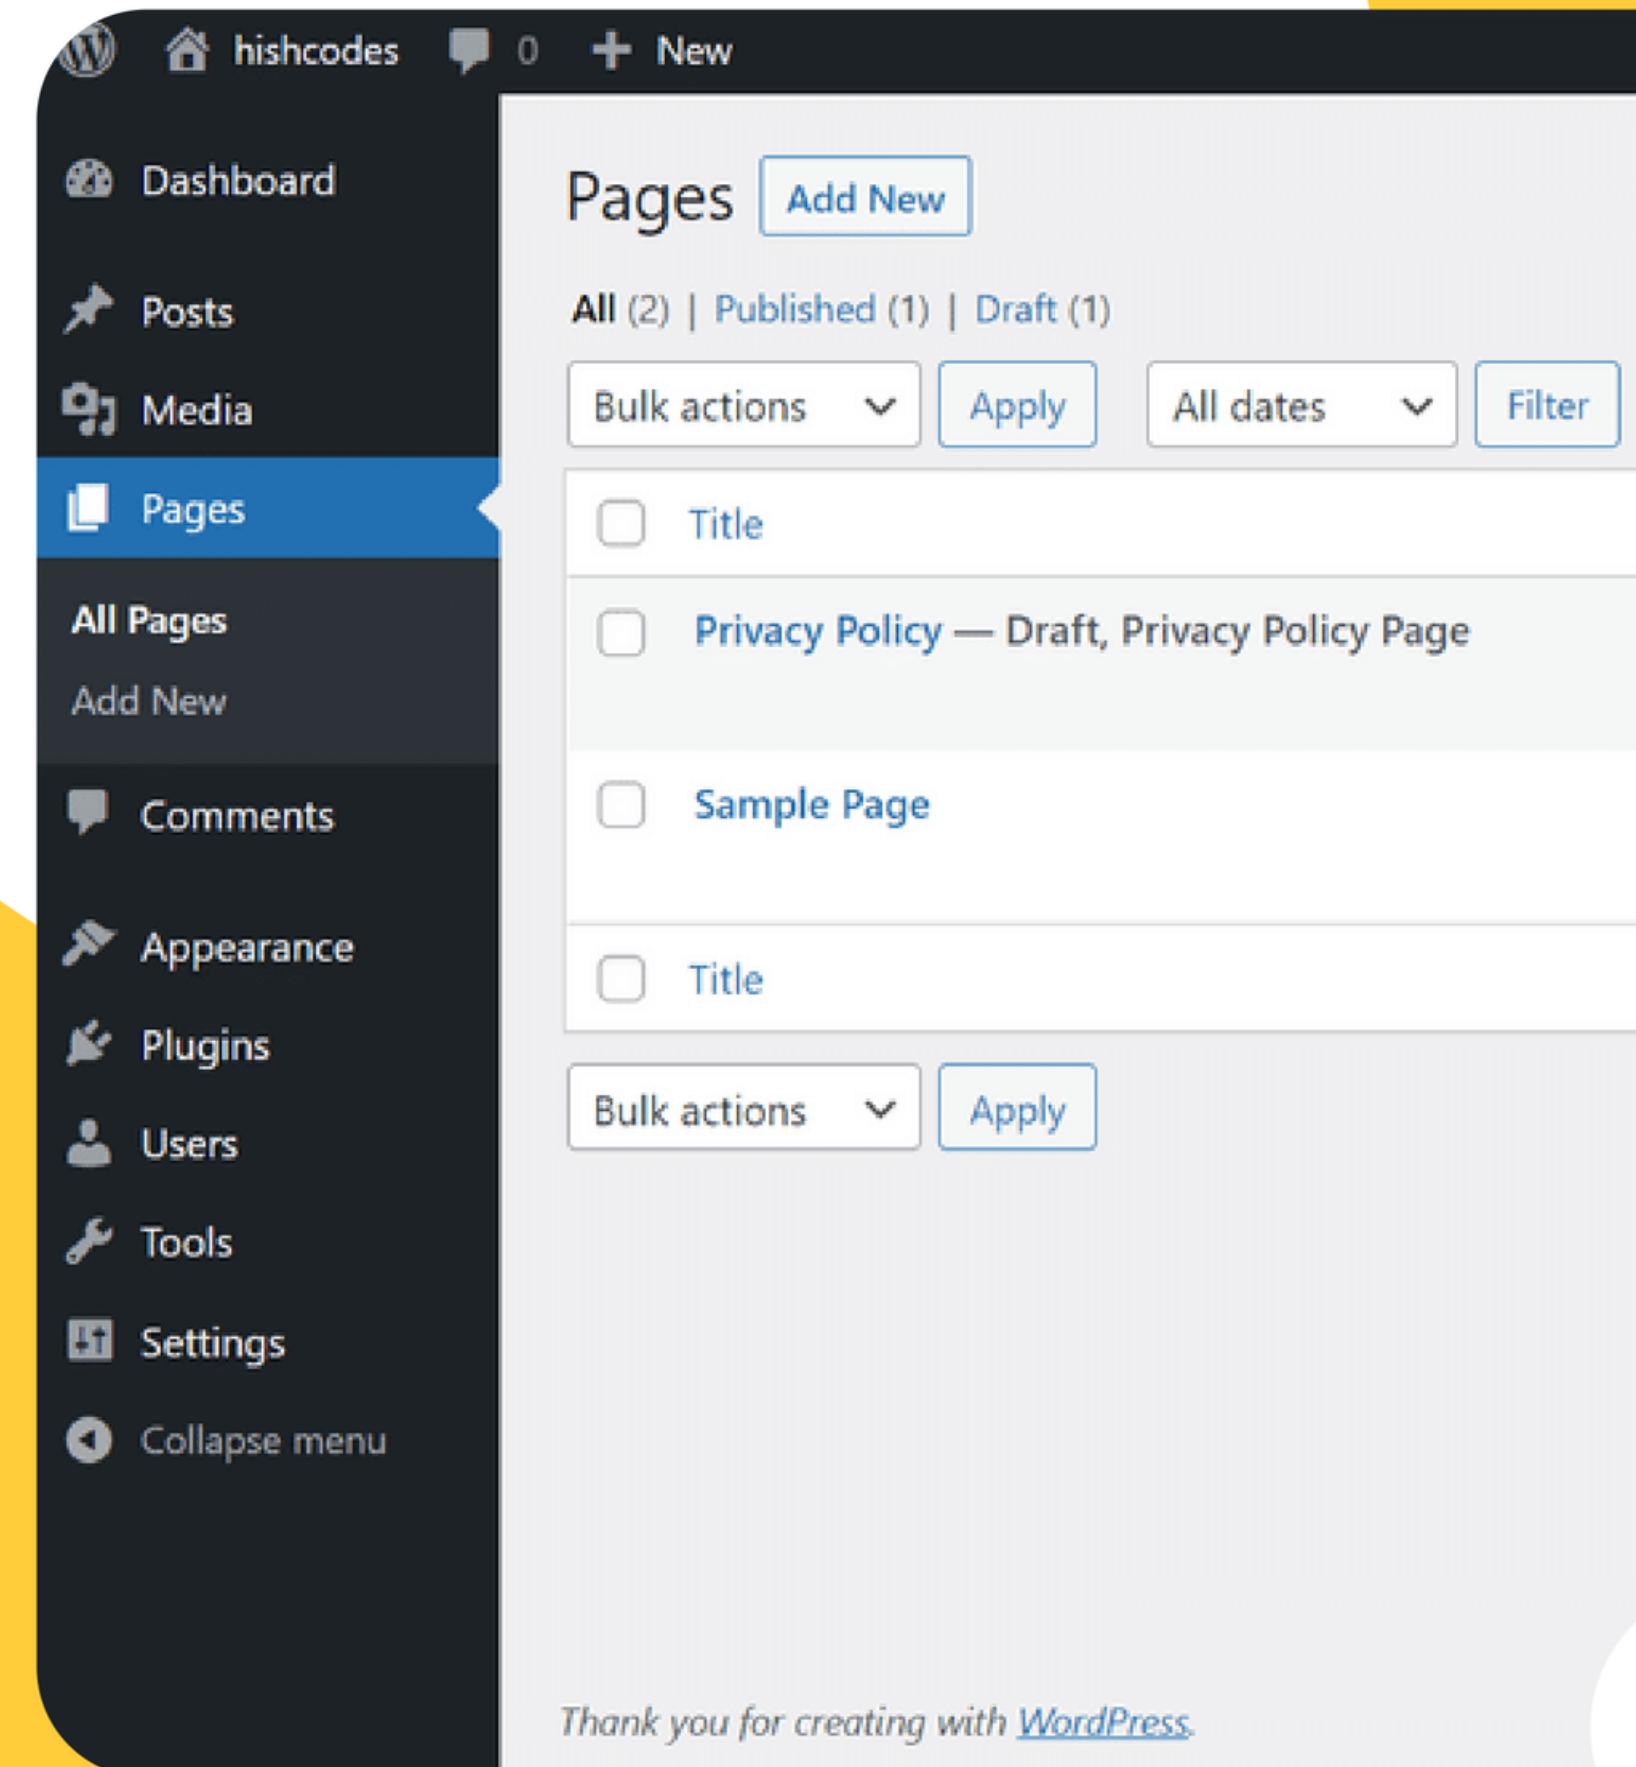

Media

All your **images**,
documents or **media**
files are stored here. You
can browse through your
Media library, add new
media as well as edit and
update the files.

Pages

All the pages of your website such as the **homepage** and **about us** can be found here. Go to this section if you want to create a new page or make changes to existing ones.

The screenshot shows the WordPress admin interface for the 'Pages' section. The left sidebar has 'Pages' selected. The main area displays two published pages: 'Privacy Policy' (Draft, Privacy Policy Page) and 'Sample Page'. There are also two other pages listed as titles: 'Title' and 'Title'. At the bottom, there is a message: 'Thank you for creating with WordPress.'

Comments

You'll manage your **blog comments** in this section. You can approve, delete, modify or reply to comments that come into your blog.

The screenshot shows the WordPress admin interface with the title 'hishcodes' at the top. The left sidebar has a dark theme with white icons and text. The 'Comments' menu item is highlighted with a blue background. The main content area is titled 'Comments' and shows a single comment listed. The comment author is 'A WordPress Commenter' from 'wordpress.org' with the email 'wapuu@wordpress.example'. The comment text is 'Hi, this is a comment.' Below the comment, there is a note: 'To get started with moderating comments, visit the Comments screen in the dashboard.' At the bottom of the screen, there is a message: 'Thank you for creating with WordPress.'

Thank you for creating with WordPress.

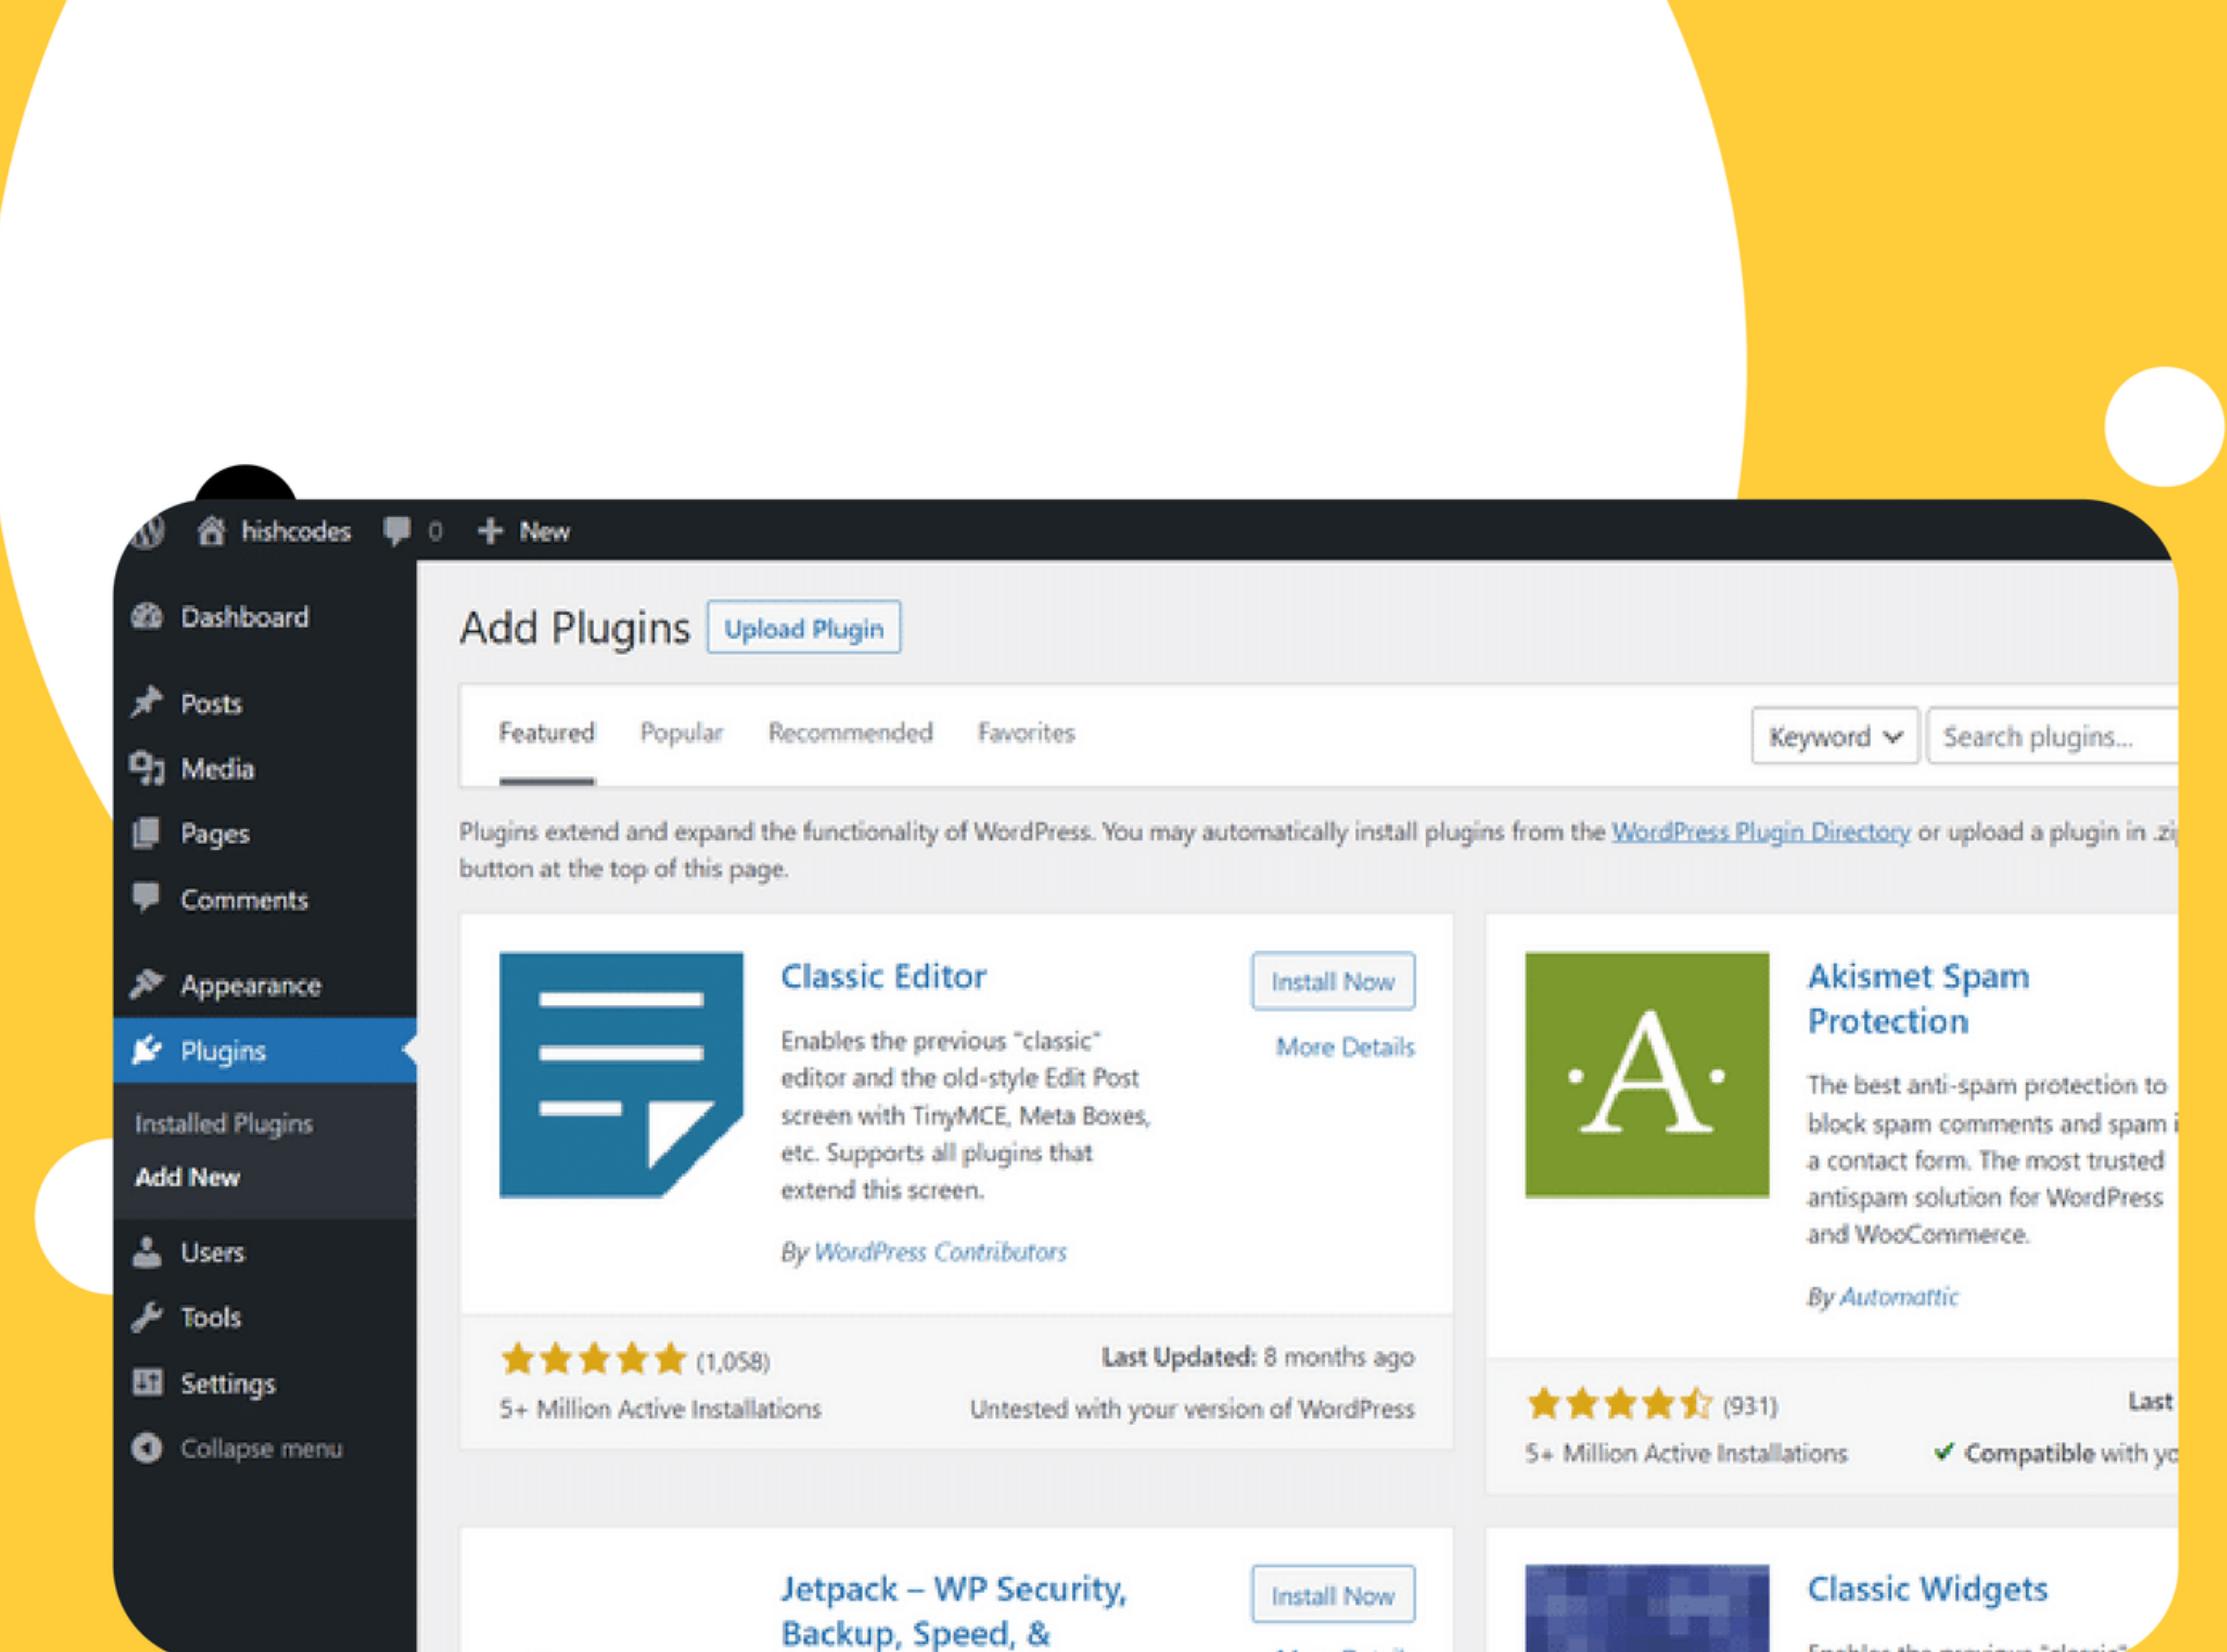

Appearance

You can change or customize your website **themes**, add background images and edit/control your website **navigation menu** here.

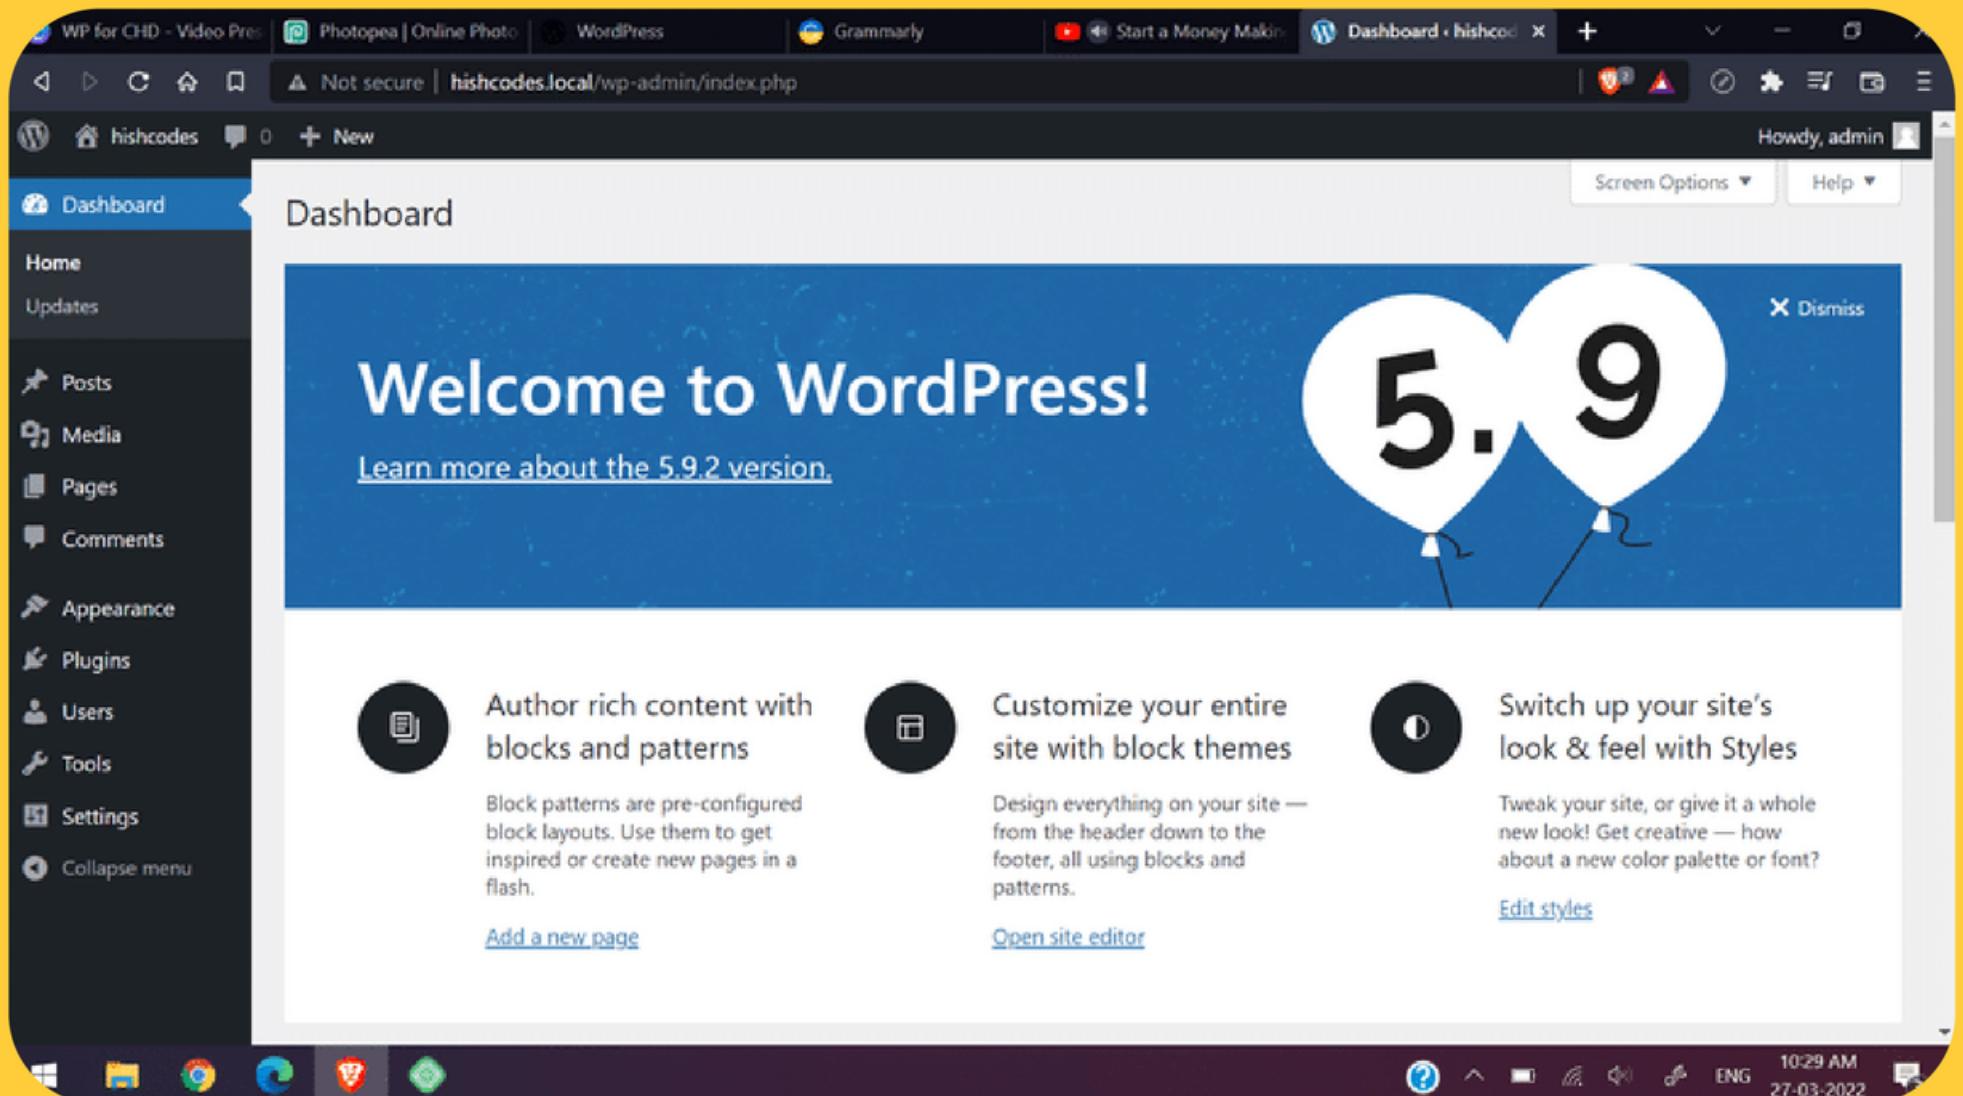

Plugins

Plugins are like “apps” for your WordPress site. They are pieces of software that **add or extend the functionality** of your site

The screenshot shows the WordPress Admin Dashboard with a sidebar on the left containing links: Dashboard, Posts, Media, Pages, Comments, Appearance, Plugins (which is selected), Installed Plugins, Add New, Users, Tools, Settings, and Collapse menu. The main area is titled "Add Plugins" with tabs for Featured, Popular, Recommended, and Favorites. It includes a search bar for "Keyword" and "Search plugins...". Below the tabs, a brief description states: "Plugins extend and expand the functionality of WordPress. You may automatically install plugins from the [WordPress Plugin Directory](#) or upload a plugin in zip format by clicking the button at the top of this page." There are three plugin cards displayed:

- Classic Editor**: By WordPress Contributors. 5+ Million Active Installations. Last Updated: 8 months ago. Status: Untested with your version of WordPress.
- Akismet Spam Protection**: By Automatic. 5+ Million Active Installations. Last Updated: 1 month ago. Status: Compatible with your version of WordPress.
- Jetpack – WP Security, Backup, Speed, & More**: By Automattic. 5+ Million Active Installations. Last Updated: 1 month ago. Status: Compatible with your version of WordPress.

Clean up WP

- 1 Login to dashboard
- 2 Delete plugins, posts and pages
- 3 Delete themes
